

COMPTON CREEK

Watershed Management Plan

June 2005

COMPTON CREEK

Watershed Management Plan

Prepared by
Los Angeles and San Gabriel Rivers Watershed Council

With the assistance of
EIP Associates
and
Heal the Bay

June 2005

ACKNOWLEDGEMENTS

This Watershed Management Plan was made possible by a grant from the State Water Resource Control Board (SWRCB) pursuant to the Costa-Machado Water Act of 2000 (Proposition 13) and any subsequent amendments for the implementation of California's Nonpoint Source Pollution Control Program. The contents of this document do not necessarily reflect the views and policies of the SWRCB, nor does mention of trade names or commercial products constitute endorsement or recommendation for use.

This Plan was written by the Los Angeles and San Gabriel Rivers Watershed Council and EIP Associates. The Monitoring Program proposed in Chapter 6 was developed by Mark Abramson and Mike "Gnome" Grimmer/Heal the Bay and Damon Wing/Ventura Coastkeeper.

This Plan would not be possible without the many contributions of the Community Action Team and the Steering Committee members. We would like to specifically thank the following Steering Committee members for their help with the Community Action Team meetings and the Neighborhood Workshops: Heal the Bay, Rivers and Mountains Conservancy, US Army Corps of Engineers, Supervisor Burke's office, California Coastal Conservancy, County of Los Angeles Department

of Public Works, Anne Dove/National Park Service, Mia Lehrer and Associates, MRCA, North East Trees, and the City of Compton. Additionally, we would like to thank Marybeth Vergara/Trust for Public Land and Salvador Reyes/Florence-Firestone Chamber of Commerce for outreach to the Spanish-speaking community and real-time translation during the Neighborhood Workshops. Last but not least, many thanks to the City of Los Angeles, Department of Public Works, Bureau of Sanitation, Watershed Protection Division for providing printing services for this document.

All maps appearing in this document were prepared by the Los Angeles and San Gabriel Rivers Watershed Council. Copyrighted sources for GIS data used in the maps include the following:

- Hydrology, city boundaries and roads: GDT © 2003
- Transportation and street detail: Thomas Brothers Maps © 2003; data made available through a user agreement with the San Gabriel and Lower Los Angeles Rivers and Mountains Conservancy

Maps referencing these data sources may not be reproduced in whole or in part.

Thank you for your interest in the Compton Creek Watershed Management Plan.
